91E TEST RE

We train

We drill on emergency response

Our plans assume you have enough help-
what if you don't?

Plans assume you
will be able to
decontaminate

CPR training assumes pairs, at least

What if our
assumptions
are wrong?

So, we set up a
CPR drill.

It all depends on one person

Decontaminate the person

Get the person out of the suit

Decontaminate the person

Get the person out of the suit

Decontaminate the person

Start CPR

Get the person out of the suit

Decontaminate the person

Get the AED

Start CPR

Get the person out of the suit

Decontaminate the person

Get the AED

Start CPR

Open the exterior security gate

Get the person out of the suit

Decontaminate the person

Get the AED

Start CPR

Hold open the building doors

Open the exterior security gate

Get the person out of the suit

Decontaminate the person

Get the AED

Start CPR

Hold open the building doors

Open the exterior security gate

Use the AED

Call 911

Get the person out of the suit

Decontaminate the person

Get the AED

Start CPR

Hold open the building doors

Open the exterior security gate

Use the AED

Call 911

Get the person out of the suit

Decontaminate the person

Get the AED

Start CPR

Hold open the building doors

Open the exterior security gate

Tell Security that you need an ambulance

Use the AED

Call 911

Get the person out of the suit

Decontaminate the person

Get the AED

Reassure/direct the people who are still in PPE

Start CPR

Hold open the building doors

Open the exterior security gate

Tell Security that you need an ambulance

Use the AED

Call 911

Get the person out of the suit

GET

Decontaminate the person

Get the AED

Reassure/direct the people who are still in PPE

HELP

Take CPR

Hold open the building doors

Open the exterior security gate

Tell Security that you need an ambulance

Use the AED

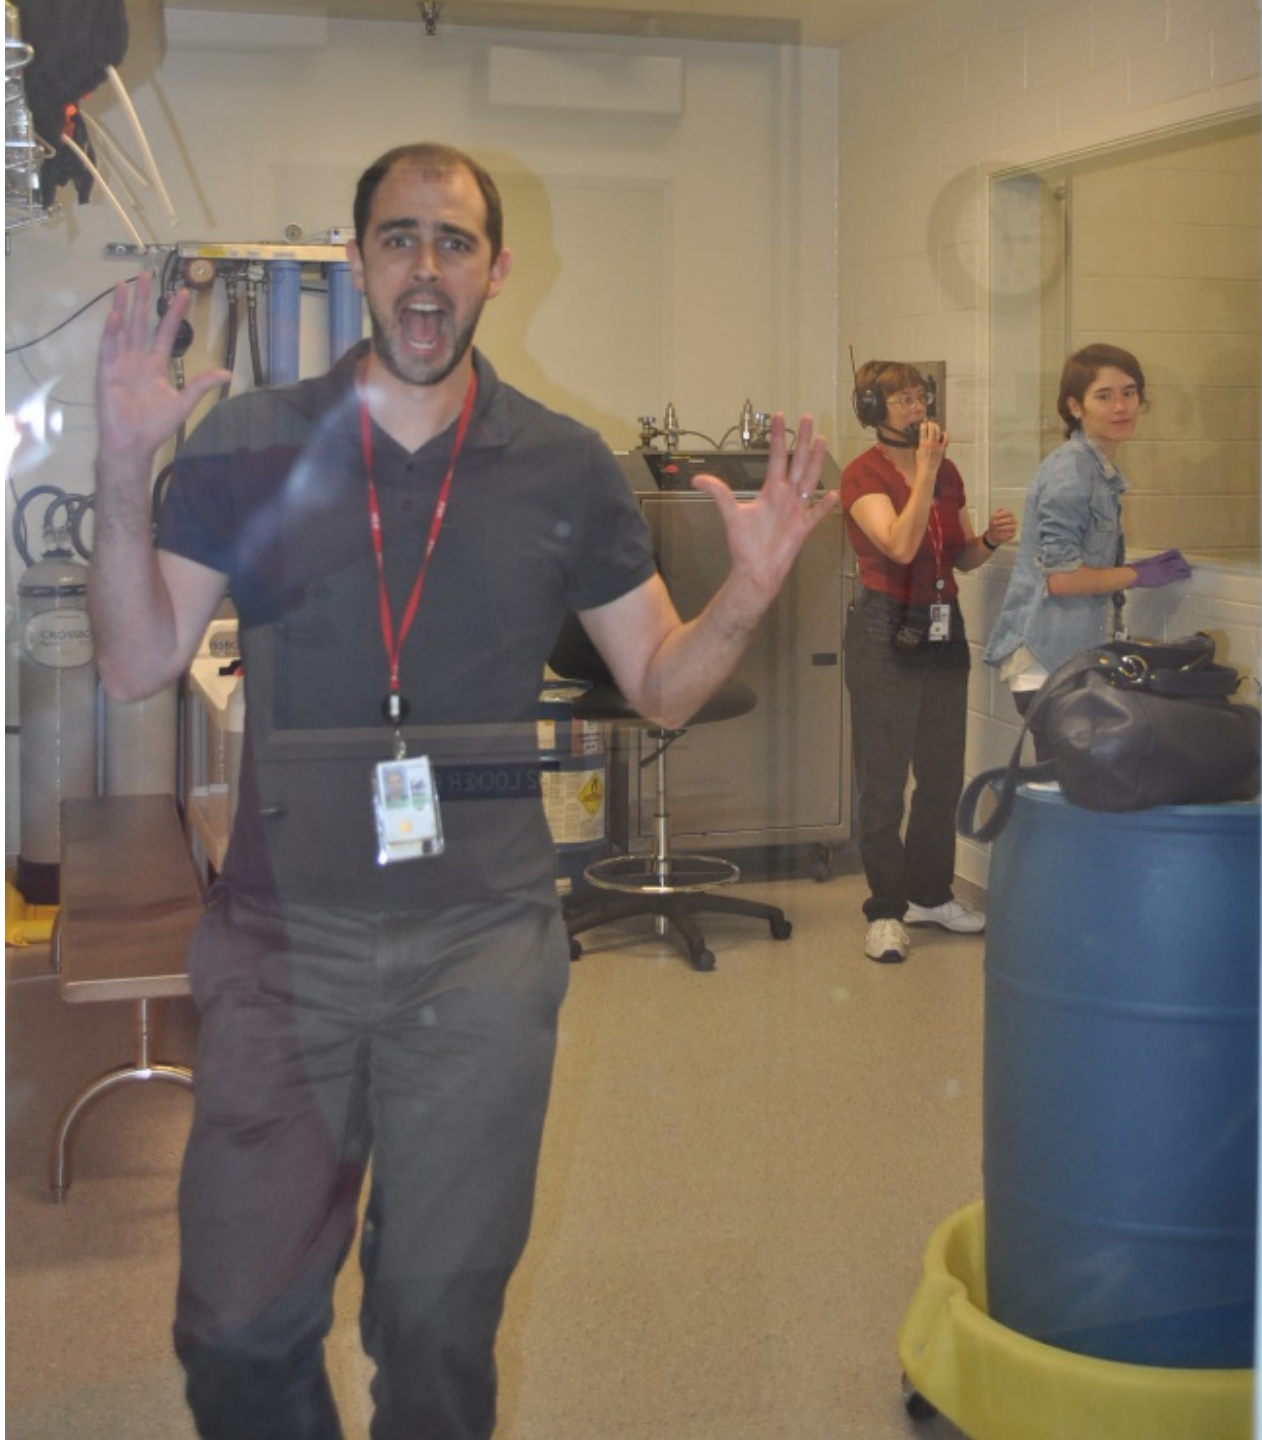

Who can help?

How can they help?

EMERGENCY
EXIT ONLY

What do
you want/
need them
to do?

15 min for first responders to arrive and suit up

WEST DOOR

Lessons learned

One is not enough

Hands-on
practice is
necessary

No one can do everything, but everybody can do something.

- Max Lucado

Training increases trust
